ABOUT ME

Performance-driven Digital Marketing Specialist with 3+ years of experience in website management, marketing automation, lead generation, CRM platforms, SEO, SEM, paid ads, email marketing, and social media management. Skilled in creating marketing content, managing websites, optimizing online presence, designing marketing collateral, and leveraging data-driven strategies to improve lead generation and business growth. Experienced in workflow automation, reporting, and managing multiple marketing initiatives in fast-paced environments.

EXPERIENCE

- Conducted comprehensive keyword research, competitor analysis, and search intent analysis to identify ranking opportunities and improve organic search visibility.
- Implemented on-page SEO strategies, including meta tag optimization, heading structures, internal linking, image optimization, and SEO-friendly content updates.
- Performed technical SEO audits to identify and resolve crawlability, indexing, broken links, website speed, and other technical performance issues.
- Managed off-page SEO activities, including backlink research, link-building outreach, business directory submissions, and local citation development.
- Optimized Google Business Profiles, local keywords, business listings, and website content to strengthen local search presence and customer discovery.
- Monitored website performance using Google Analytics, Google Search Console, SEMrush, and Ahrefs, tracking keyword rankings, organic traffic, and engagement metrics.
- Developed SEO-focused blogs, website content, and content strategies aligned with target keywords, user search intent, and business objectives.
